

# UCL-T6

Under Cabinet Lighting, general usage

LED Smart  
lighting

*Patented*

## DESCRIPTION

The LED UCL-T6 product is small in size, and fits easily into any under cabinet lighting application. With its choice of colors of white, the light will suit any esthetic.

The low profile advantage means that this light can fit into any valance or cove lighting application.

## STANDARD FEATURES

- 12" Length
- Cool, Neutral, or Warm White LEDs
- 24VDC Operating Voltage

## ACCESSORIES

- Mounting Clips
- Double Sided Adhesive Mounting Tape
- End to End Connectors
- Power Supply

## FEATURES

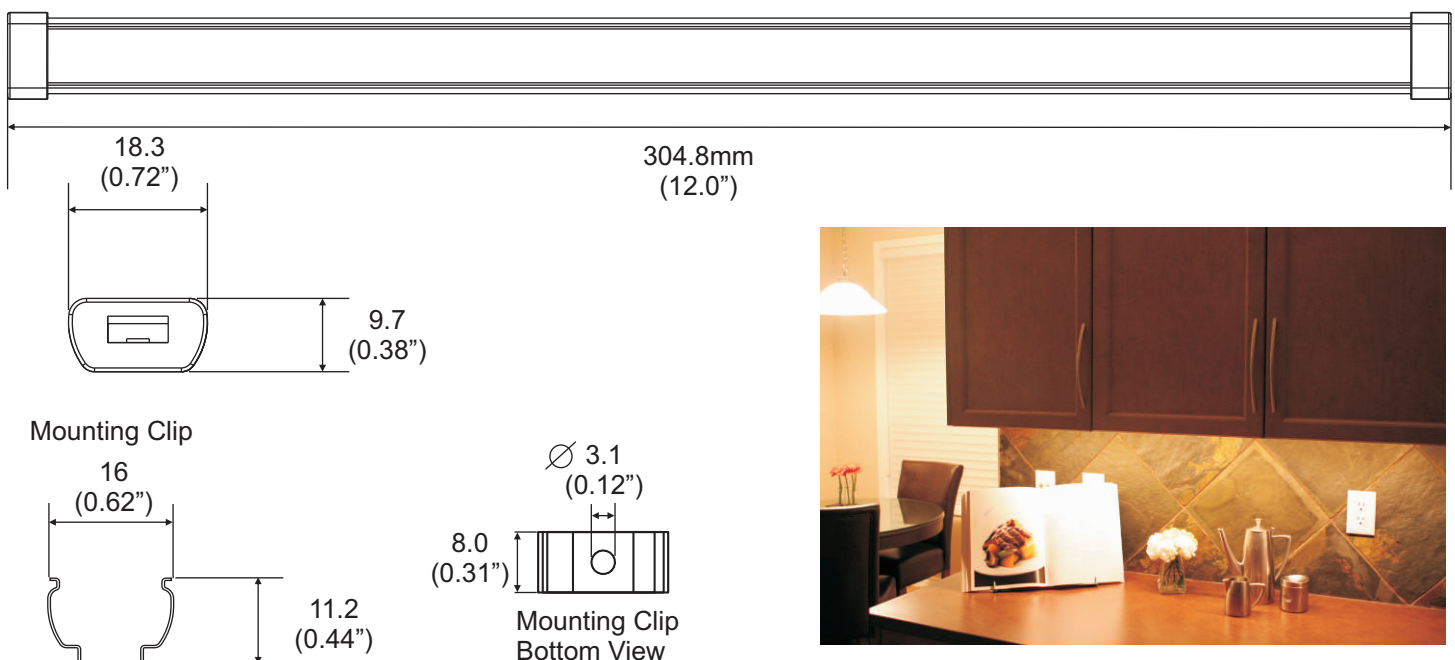

The special features of the LED UCL-T6 light are:

- Solid state lighting device, works well in harsh environments of hot or cold temperatures
- Instant on, no warm up time required
- Lasts 10 times longer than fluorescent lamps
- No EMI emissions, to reduce radio interference
- Designed to install anywhere
- Vibration proof features
- Lead Free, No mercury

RoHS
